

119TH CONGRESS
2D SESSION

S. 4664

To authorize the Safer Choice Program within the Environmental Protection Agency, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JUNE 2, 2026

Mr. COONS (for himself and Mr. HUSTED) introduced the following bill; which was read twice and referred to the Committee on Environment and Public Works

A BILL

To authorize the Safer Choice Program within the Environmental Protection Agency, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Safer Choice Program
5 Authorization Act of 2026”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

8 (1) to promote the development and use of
9 safer chemical products, the Environmental Protec-
10 tion Agency has carried out—

1 (A) the Design for the Environment pro-
2 gram for more than 30 years preceding the date
3 of enactment of this Act; and

4 (B) the Safer Choice program for more
5 than 10 years preceding the date of enactment
6 of this Act;

7 (2) the programs described in paragraph (1)
8 (referred to in this section as the “programs”) are
9 voluntary, market-based initiatives that provide con-
10 sumers, businesses, and institutional purchasers with
11 clear and reliable information to inform product se-
12 lection;

13 (3) the programs have supported United States
14 innovation by providing a predictable framework for
15 manufacturers, including small and medium-sized
16 businesses, to develop products that meet high
17 standards for safety and performance;

18 (4) the programs have enabled companies to
19 differentiate their products in the marketplace and
20 respond to growing consumer demand for safer
21 products;

22 (5) the credibility of the Safer Choice and De-
23 sign for the Environment labels under the programs
24 depends on rigorous, science-based evaluation of

1 chemical ingredients, including comprehensive and
2 transparent review processes;

3 (6) qualified third-party profilers play an im-
4 portant role in supporting efficient, consistent, and
5 science-based product evaluations under the pro-
6 grams, particularly in cases involving complex supply
7 chains and confidential business information;

8 (7) the Environmental Protection Agency has
9 established expertise, infrastructure, and relation-
10 ships necessary to effectively administer the pro-
11 grams, including the protection of sensitive propri-
12 etary information; and

13 (8) authorizing and strengthening the Safer
14 Choice program under this Act will—

15 (A) provide greater certainty, trans-
16 parency, and continuity for participants in the
17 programs, while preserving the voluntary, non-
18 regulatory nature of the programs; and

19 (B) support United States competitiveness,
20 consumer choice, and continued innovation in
21 safer chemistry.
