78 (b) the state board determines that the school district is a high growth district under
79 Subsection (2).
80 (2)(a) The state board shall determine which eligible districts qualify as high growth

82 increase.
83 (b) In making a determination under Subsection (2)(a), the state board shall:
84 (i) calculate the sum of average annual net enrollment increases for all school

91 under Subsection (2)(b)(ii) is equal to or greater than 0.10.

- 107 (i) for the fiscal year in which the new or reorganized school district is created, the
- 108 state board shall calculate the new or reorganized school district's net enrollment
- 109 increase by:
- 110 (A) using as the baseline ADM the number of students from the geographic
- 111 territory served by the new or reorganized school district who were enrolled in
- 112 the predecessor district or districts for the fiscal year immediately preceding
- 113 the creation or reorganization; and
- 114 (B) comparing the baseline ADM under Subsection (5)(a)(i)(A) to the new or
- 115 reorganized school district's actual ADM for the fiscal year;
- 116 (ii) for the two fiscal years immediately following the fiscal year described in
- 117 Subsection (5)(a)(i), the state board shall calculate the new or reorganized school

- 127 district loses territory or students due to a split, consolidation, or reorganization:
- 128 (i) for the fiscal year in which the split, consolidation, or reorganization occurs, the
- 129 state board shall calculate the remaining school district's net enrollment increase
- 130 by:

- 131 (A) using as the baseline ADM the remaining school district's ADM for the fiscal
 132 year immediately preceding the split, consolidation, or reorganization, adjusted
 133 to exclude the ADM of students who were transferred to another district; and
 134 (B) comparing the adjusted baseline ADM under Subsection (5)(b)(i)(A) to the
 135 remaining school district's actual ADM for the fiscal year;
 136 (ii) for the two fiscal years immediately following the fiscal year described in
 137 Subsection (5)(b)(i), the state board shall calculate the remaining school district's

 140 the split, consolidation, or reorganization occurred;
 141 (B) actual year-over-year ADM changes for each subsequent fiscal year; and
 142 (C) projected enrollment data under Subsection (3)(b) if applicable; and
 143 (iii) beginning with the third fiscal year after the split, consolidation, or
